

YEARS 11–12

HSC Advantage with AI

Study with AI, not from it.

Five workshops, five tools students build, own and keep — more marks, earned with integrity.

Stage 6 students already use AI — but mostly as an answer machine, which quietly costs them marks and real learning in the years that matter most. This five-workshop program teaches them to use it the way the strongest students do: to **understand faster, test themselves, get genuine feedback, stay the right side of NESA's integrity line, and run a study system that lasts the whole HSC.**

The goal is simple — more marks, earned honestly — with AI literacy, integrity and future-ready thinking built in. Students finish with their own **AI Study Toolkit**: five tools they've built, own, and keep. And because it's built on an **agile methodology**, every workshop can be adapted to fit your school's own model, tools and approach.

WHAT STUDENTS WALK AWAY WITH

- A **personal AI Study Toolkit** — five tools, kept for the HSC
- Faster understanding + memory that **sticks**
- The judgement to **verify** and use AI critically
- Confidence they're on the **right side of integrity**

The AI Study Toolkit — five tools, one per workshop

WORKSHOP 1

1

RADAR

Know your AI

How AI really works and why it's confidently wrong — and how to catch it out before it costs you.

● ● ● ● ● 1 of 5

Win: **never get caught by a confident wrong answer**

WORKSHOP 2

2

TUTOR

Your AI Tutor

A personal tutor that explains any concept at your level — and quizzes you until it sticks.

● ● ● ● ● 2 of 5

Win: **get unstuck — and make it stick**

WORKSHOP 3

3

RED PEN

Trust, but verify

Marking-style feedback on your own work on demand — and the judgement to know when it's right.

● ● ● ● ● 3 of 5

Win: **feedback on demand**

WORKSHOP 4

4

RULEBOOK

Where's the line?

Exactly where AI use is legitimate versus a breach under NESA — a clear "is this OK?" test.

● ● ● ● ● 4 of 5

Win: **keep the marks you earn**

WORKSHOP 5

5

GAME PLAN

Your AI study system

Switch on the Toolkit you've built — a weekly routine that runs all five tools, for the whole HSC.

● ● ● ● ● ✓

Win: **a routine you'll keep**

HOW IT WORKS

~50-minute workshops

Delivered weekly or fortnightly across a term.

Resources provided

Worksheets, prompt cards and their personal AI Study Toolkit.

One running project

A small consolidating homework task across one of the student's own subjects.

Book a pilot this term

See it with one class, measure the difference, then decide.
